Experienced Web Developer with over 2.6 years of experience specializing in designing, building, and testing web-based applications using React.js. Strong knowledge of HTML, CSS, JavaScript, Bootstrap, Tailwind and best practices in web screen design. Adept at working with middleware platforms and integrating data through web screens. Skilled in maintaining website standards and complying with predefined design guidelines.

WORK EXPERIENCE

Sr. Analyst/Software Engineer-Capgemini (January 2023-Present)

Noida

Gen AI Amplifier

- Designed, built, and maintained responsive UI using React.js, ensuring compliance with design guidelines and best practices.
- Collaborated with cross-functional teams in Agile environments to deliver efficient React.js solutions.
- Contributed to the backend development using Python, enhancing system scalability and integration.
- Led a team of 2 developers, fostering collaboration and achieving project goals.
- Optimized platform scalability and responsiveness by leveraging React JS best practices, such as component-based architecture, code splitting, and caching. This resulted in a **decrease in bundle size** and a **20% improvement in page rendering speed**.
- Led efforts in unit testing React.js components, ensuring a high degree of test coverage and reliability.
- Actively participated in Agile ceremonies and collaborated with a team of developers and designers to improve development processes.
- Demonstrated expertise in version control systems such as Git, ensuring efficient team collaboration.

Humana Project (March 2022- December 2022)

Noida

- Designed, built, and tested web-based applications using React.js, adhering to predefined design guidelines and maintaining high standards of website development.
- Applied best practices in web screen design to create responsive and user-friendly web interfaces.
- Collaborated closely with cross-functional teams to ensure smooth data flow through middleware platforms and APIs, integrating and updating data as specified in functional requirements.
- Developed and maintained reusable React.js components, improving the efficiency of front-end workflows.
- Tested and debugged web-based applications using React.js, ensuring seamless user experiences across browsers and devices.
- Worked on optimizing performance, ensuring compliance with both design and technical specifications.

Analyst/ Software Engineer Capgemini (March 2022-February 2022)

JSR (Japan Synthetic Rubber Co., Ltd.)

- Developed and maintained the website using React and Redux.
- Implemented responsive design to ensure optimal user experience across different devices.
- Integrated with backend APIs to retrieve and display product data.
- Collaborated with designers and backend developers to deliver projects on time and within **budget**.

Analyst/ Software Engineer Capgemini (January 2022-March 2022)

Trainee

- Developed and implemented a robust Census Reporting System for comprehensive population data analysis.
- Leveraged Power BI to create visually compelling reports, translating data into actionable insights.
- Attained proficiency in SQL, SSMS, SSIS, and SSRS, enhancing technical skill set.

SKILLS

Frontend Development: React.js, HTML, CSS, JavaScript, Bootstrap, Tailwind
Backend Development: Java, Python
Testing: Robot Framework for Python, SQL (Manual)
DevOps Tools: Git
Methodologies: Agile

CERTIFICATION

- Meta Front-End Developer Certificate
- Java 8 New Features
- AWS Certified Cloud Practitioner
- Innov-a-thon 2022 Certificate from Capgemini
- Gen AI Bullseye Challenge by Capgemini

EDUCATION

Bachelor of Technology from Govind Ballabh Pant Government Engineering
(2016-2020)
